

Notice of Review

IRB Protocol #: 2020D000290
Principal Investigator: Weber, Griffin
Protocol Title: Aggregate count statistics on COVID-19 patients using Clinical Query 2 (CQ2)
Determination Review Date: 03/31/2020

Your project has been reviewed by the Associate Director of Operations for Committee on Clinical Investigations (CCI) in accordance with CCI policy. The CCI considers both the OHRP (45 CFR 46.102(f) and FDA (21 CFR 50.3(g); 21 CFR 56.102(e)) definitions when determining if an activity is human subject research.

The proposed activity as described DOES NOT constitute human subjects research. Therefore, no further CCI review and approval is required. This determination only applies to the activities described in this request. If there are any changes that may alter this determination, the investigator must submit another determination form detailing the revised activity.

PLEASE NOTE:

Please contact the Committee on Clinical Investigations (CCI) at 617-975-8511, with any questions.
